Revolutionizing Restaurant Customer Service Finally! Service that Makes Sense! Perfect Service for Every Customer Every Time

ServiceLight by Servisensor is a brand new table top communication device which provides servers all the information they need to provide perfect service. Three attractive touch lights communicate to servers that their customer is ready to order, needing a refill on their beverage, or they are now ready for their check.

No more wasted trips to the table eliminating the number one customer complaint, which is

too many visits to the table. ServiceLight also eliminates the number two complaint from customers which is being ignored. A server's time becomes completely efficient as all wasted trips to the table are eliminated.

ServiceLights are inexpensive, efficient, stackable for easy storage and easy to use. ServiceLights are a win win product for customers, servers and restaurants!

Finally! Service that makes sense.

A tabletop communication device which signals customer needs.

- INEXPENSIVE & ATTRACTIVE
- SIMPLE TO USE
- BRANDABLE
- EFFICIENT & EFFECTIVE
- LIGHT & PORTABLE
- EASILY STORED - STACKABLE
